Poor

I expected an issue of this nature will be addressed with more seriousness. As a matter of fact, I am a member of CCC, which is managing the CORE Centre. If the government is serious about ensuring a self-sustaining consumer movement, it cannot wish away the serious lapses on the part of the Supreme Court. It should rather file a second Curative Petition if it wants to eliminate Unfair Trade Practices. Please visit our website [www.advantageconsumer.com](http://www.advantageconsumer.com) or contact me if you need any further details. This whole exercise appears to be formality played to satisfy the powers that be. CORE cannot do much on this issue and I had detailed these developments in the AGM, held in New Delhi, in 2013. Anyhow, thanks for this futile exercise.
